

सुचना DECEMBER 2022

RANGEEN KHIDKI FOUNDATION

Dear Patron,

2022 has been a year filled with opportunities and learnings for us and none of it would have been possible without your immense support. We are grateful for the love you've shown us and we thank you for being a part of our journey.

We send you warm regards and hope the new year brings you joy and a truck load of possibilities.

~ Team Rangeen Khidki

MAY

Rang Saga was conceptualised as an inclusive platform to hold conversations on bodily autonomy and gender justice using various mediums of art, music, street play, etc. Kolkata witnessed the first of its kind event in Rang Saga, where partakers felt seen, heard and valued, irrespective of gender, age or community. Approximately **500** people joined in the celebrations of diversity through the various events- catapulting Rang Saga's first chapter into the much needed safe space. This space brought the conversations and people together to further the movement on bodily autonomy, among others.

JUNE

Rangeen Khidki effectively rolled out the Period Adda program with **105 adolescent girls** at **Chakpatli High School** in Patli Khanpur Village, Hasnabad block **on 18th June, 2022.**

AUGUST

We also extended our program reach to Barrackpore where we collaborated with **Barrackpore Girls High School** to conduct sessions on menstrual health management with **106 adolescent girls** over a span of three training based sessions. Simultaneously, we also collaborated and conducted regular weekly sessions with **Brahmo Balika Vidyalaya, Gyan Bharati Balika Vidyalaya and Saraswati Balika Vidyalaya** in Kolkata. Over the course of five months Rangeen Khidki has been able to train and empower a total of **661 adolescent girls within the age group of 11 years to 18 years.**

We successfully implemented our Menstrual education training based program- **Period Adda** in 4 government schools across Kolkata, West Bengal starting from 18th August, 2022. We conducted a session with the 9th standard students of **Nabagram Moyna Pulin Behari High School** at Nabagram with 33 students.

SEPTEMBER

We got to be a part of the **Asia Youth Festival** which happened between 19th September and 21st September in **Kualalumpur, Malaysia** organised by **ARROW**. This was an immersive and interactive opportunity for us to not just present our work that we have been doing under the Change Makers Program by ARROW but also learn from participants across 7 countries about their context, culture and innovations in SRHR.

Rangeen Khidki partnered with Jodhpur Park Boys school to pilot its **Gender, Leadership and Masculinity** program. It is a 15 week long program that aims to train adolescent boys from 15 to 17 years (classes 9th to 12th standard) to capacitate them with skills and education allowing them to become responsible and equal leaders in their communities through behavioural change. The program aims to subvert the understanding and ideas of masculinity and reimagining it in a gender equitable way.

OCTOBER

We collaborated with storyteller and mythologist **Seema Anand** and tried to decode the history of pleasure and sexuality and see how heteronormative patriarchal structures overtime has impacted how pleasure is perceived through our interview, **Mythology, Pleasure and More**. Watch it [here](#).

NOVEMBER

Sanjina, Co-founder and CEO of Rangeen Khidki Foundation was one of the speakers for the session on Comprehensive sexual education and access to SRH Services at the **International Conference on Family Planning**. This gave us an opportunity to talk about our practices, experience and the lessons that we have learnt in the last 1 year and a half of our **My Body My Rights** program.
